THEIR RELATIONS DISCUSSED BY CAL-DERON CARLISLE.

A REPORT FROM THE SPANISH GOVERNMENT'S LEGAL ADVISER IN THIS COUNTRY MADE

TO MINISTER DE LOME. Washington, Sept. 1 .- The report of Calderon Carlisie, of this city, the legal adviser of the Spanish Government in this city, to Senor de Lême, the Spanish Minister, on the subject of the Cuban question, with particular reference to fillbustering expeditions, was made public to-day. It is an ex-haustive document of over six hundred printed pages, and abounds in copious extracts from judicial opinions and documents of various kinds bearing on the relations of the United States with Spain in regard to the Cuban insurrection. Special refer-ence is made to the laws of the United States and proceedings thereunder to prevent expeditions against the lawful government of Spain in Cuba leaving the United States. This is the second report on this subject by Mr. Carlisle, the former one d all nations on the subject of neutrality. laws of the United States and their construction by the courts as furnishing the means at the com-mand of the Government to fulfil what is termed the international duty of the United States, "additted, in principle at least, by the proclamations the President." It says that, while the practical results of the Supreme Court decision in the Three Friends case have not been as immediate as might well have been expected, it has a far-reaching imto be seen. In summing up the conclusions of

the investigation in which Mr. Carlisle has been enraged, the report says:

A continued study of the neutrality laws of the United States and their application to the existing emergency convinces the undersigned that, in spite of the various failures of justics which have occurred, the laws are sufficient in themselves to enable the United States to come up to the full measure of international duty which they required of Great Britain. To accomplish this it is not necessary that the Executive should attempt any interference with the Judiciary, but only that the Executive should, by its own example in preventing and prosecuting violations of the law, impress both the courts and Juries of the country with the gravity of the matter in hand.

No exercise of arbitrary power is suggested or required, but the vigilant and vigorous exercise of our exceptional powers which are given by our own laws may be rightly respected when it is remembered that those laws are passed to enable us to fulfil a duty under the law of nations, the violation of which duty, through the permitted acts of lawless citizens on inhabitants, may entail vast and distressing consequences.

First—That the United States now owes to Spain all the international duties which one friendly nation owes to another in time of peace, and can owe no international duty to the insurgents.

Second—That by admitting officially and proclaiming to its citizens and inhabitants knowledge of the existence of the insurrection in Cuba, the United States admits knowledge of a fact which increases its duty of vigilance in detecting and diligence in preventing the beginning or setting on foot or providing or preparing the means for military expeditions of enterprises by its citizens or inhabitants within its territory against Spanish territory.

PRECAUTIONS AGAINST A HOSTILE DEMONSTRA-TION PROVE TO BE UNNECESSARY.

San Sebastian, Sept. 1.—General Stewart L. Woedford, the United States Minister to Spain, arrived here this afternoon. Unusual precautions had been taken by the authorities to prevent any hostile demonstration, but these apparently were unnecessary, as the behavior of the crowds that gathered to witness the Minister's arrival was perfectly sat-

States Minister to Spain, has advised the State De-partment that he would leave Paris to-day for San Sebastian, the seat of the Spanish Court in summer. Contrary to the original expectation, it is not now believed that Mr. Woodford will be presented to the Queen Regent at San Sebastian. It is said to be only in exceptional cases that presentations of new Ministers are made at that place, the Court fiction being that the royal family is in retirement for the time being. Mr. Woodford, however, will not be prevented from relieving Mr. Taylor, the retiring United States Minister, by the postponement of all formal presentation, nor will be settoped entirely from the performance of the duties. It is expected that he will be informally presented to the Spanish Minister for Foreign Affairs at San Sebastian, and that he will be recognized by the Spanish Government Immediately thereafter to the extent of transacting such business as does not involve questions of large policy. This limitation, of course, will delay for a time the execution of Mr. Woodford's instructions from President McKiniey on the question of Cuban autonomy and the abatement of the present conditions in Cuba, but the delay will not last long, for as soon as the Spanish Court returns to Madrid Mr. Woodford will receive full recognition as a Minister Plenipoteeriary and will be in a position to present his views immediately. only in exceptional cases that presentations of new

"WILD MAN'S" HIDING PLACE FOUND. After several days' search, in which the police and a score or more of residents of Mount Vernon have taken part, the first trace of the Bronxville have taken part, the first trace of the Bronxville "wild man" was secured yesterday afternoon. His hiding place was found in the woods near the De Wilt estate, in South Bronxville, and only a short distance from the Dutch Reformed Church. The party that made the discovery was led by Sergeant Beckworth, Gilbert Angevine and Frank Curtis. Beckworth, Gilbert Angevine and Frank Curtis. Some places of vood were still burning, and a pot of "tea," made from the leaves of trees, was steeping on an improvised hearth. PROPOSED RAILWAY IN COLOMBIA.

ENGINEERS GOING FROM THIS COUNTRY TO MAKE AN INVESTIGATION.

Kansas City, Mo., Sept. 1.-W. E. Hanson and John Case, civil engineers of the Kansas City, Pittsburg and Guif Railway, will start shortly for Bogota, Colombia, South America, to make a sur-yey of the route for the proposed railway to be built by Kansas City capitalists. They are sent by E. L. Martin, A. W. Stillwell, Robert Gillham, Robert J. Trimble and other officers of the Pittsburg and Gulf system, who have secured a con-cession from Colombia through James Edward Buckley, Acting Vice-Consul of this country at Bogota. The engineers expect to be gone three months, surveying a route for 450 miles of railway menths, surveying a route for 450 miles of railway from Port Kilches, 250 miles from the mouth of the Magialena River, to Bogota, by way of Bucaramanga. If they make a favorable report, it is the Intention to organize a stock company to build the road. Mr. Buckley left Kansas City last night for New-York. He will meet Hanson and Case there, and the party will leave New-York on September 4 for South America. Mr. Buckley lives in Spokane. Wash. He was a schoolboy in Kansas City, and was recently annothied Vice-Consul.

The building of such a line of railway will require at least two years. Native labor, with American overseers, will be employed. All cars, engines and train equipments will come from this country.

BOSTON'S SUBWAY IN USE.

STREETCARS REGAN TO RUN IN ABOUT HALF OF IT YESTERDAY.

Boston, Sept. 1.-Part of the subway, the city's new underground thoroughfare for streetcars, was opened to public traffic at 6 o'clock this morning. There was no unusual demonstration. The sections which will be operated for the present are those un-der the Common and Public Garden, about threequarters of a mile in length. The other sections are completed, and will probably not be opened until

The subway was begun in March, 1894. The total length of the line is one and one-half miles. The estimated cost of the undertaking is \$5,000,000, aithough \$5,000,000 was appropriated by the city, which has lensed the subway to the West End Street Railway for twenty years.

The construction of the subway is the cutcome of years of agitation to relieve traffic in the streets of the old section of the city, which are so narrow that they become easily obstructed and are practically impassable at times. The route opened to-day is expected greatly to relieve street traffic, as more than three thousand passengers are carried hourly by the streetcars on lines now entering the subway.

The structure is if feet high and 24 feet wide where two tracks are laid, and 48 feet wide where there are four tracks. There are five underground stations at present, and more will be added as the work advances.

Washington, Sent. 1.-The Attorney-General is considering the advisability of appealing to the Circuit Court of Appeals from the decree of the Circuit Court of Appeals from the decree of the United States Circuit Court recently entered at Omaha for the sale of the Union Pacific under foreclosure proceedings. The Government, it is understood, desires some modifications of the decree entered by the Circuit Court in order still further to protect its interests, and it is only by an appeal that such modifications can be secured. Several members of the Reorganization Committee of the Union Pacific were here last week to consult the Attorney-General on this subject.

He said that Venezuela felt the warmest feeling for this country, and sketched briefly but eloquently the products and possibilities of his own country. When Dr. Sateldo referred to what he termed the attempt of Great Britain to absorb Venezuela, he brought forth an enthusiastic burst of applause by saying that the people of his country thoroughly appreciated and would always remember the attitude of the United States in for-bidding interference by foreign nations. The speaker has a favorite project for the establishment of a colony of American farmers in Venezuela, and said that he hoped soon to see the success of this plan. Then, with closer communication between the two governments, their friendly relations would be comented forever.

Señor Romero, Mexican Minister to the United States, spoke briefly, expressing the belief that miners in Mexico could do better as farmers, and he thought that American farmers would do well to turn their attention that way.

LAZARUS MORGENTHAU.

Lazarus Morgenthau, the founder of the Temple of Humanity and of the New-York German-American Non-Sectarian Orphan Dowry Fund, died on Monday diseases. He was eighty-three years old, and was

born at Mannheim, Germany. Forty years ago Mr. Morgenthau came to this country and engaged successfully in wine importing. Later he went into the real estate business and made more money. A little over ten years ago he lecided that he would devote himself to charitable works for the rest of his life. Although not having a large sum of money, he entered upon his benevolent schemes by giving freely from his own purse. He usually gave to an institution he hoped to benefit a big ledger, on the cover of which was inscribed: "The Golden Book of Life." The book was intend-

The book was intended to contain the names of the persons from whom he obtained funds and he invariably headed the list with a large contribution. In this manner the German Masonic Home was richly benefited by Mr. Morgenthau, and about \$40,600 was raised for the Orphans Home.

When his purse had become considerably lighter by the generous sums he had taken from it for contribution. struggle of some minutes, in which the elder Harrison lost his head and almost drowned himself
and son, the old man was brought to shoal water.

'I was almost exhausted, said Harrison, in telling the story, but Mrs. Schumacher screamed to
me to get Mina. I could not see her at first. I
swam out into the stream where the boat was, and
then I saw Sultan swimming about. He had Mina
by the dress, and he was struggling with the current. He did not wait me to touch her at first,
but when I specke to him he seemed to realize that
I was a friend, and he let me take her. I then got
her ashore, and she was soon revived. I brought
Mrs. Schumacher out all right, and we managed
to get home.

DISCUSSING PERSONAL BAGGAGE REGULATIONS WITH ASSISTANT SECRETARY HOWELL

Washington, Sept. 1.-Assistant Secretary Howell, who is engaged in the preparation of 'personal baggage' regulations under the clause of the new Tariff law limiting the value of baggage of returning residents of the United States which shall be exempt from duty, gave a hearing to-day to C. C. Shayne and J. A. Heckman, president and secretary, respectively, of the Merchants and Manufacturers' Board of Trade of New-York. They first were inclined to the view that 'resident' and 'citizen' were synonymous, but after Mr. Howell had pointed out that such a ruling would discriminate against American citizens, as it would permit foreigners temporarily living in the United States to go abroad and bring back clothing, articles of adornment and of toilet 'suitable' to their position in life, which in come cases might exempt goods of the value of \$1.000 or more, they changed their minds. It is probable that the regulations, which will be issued in a few Lays, will not an arbitrary limit of residence abroad at a fixed abode, probably eighteen months or two years, as the maximum period under which citizens of the United States can still claim "residence" in this country. who is engaged in the preparation of "person

PERSONAL LUGGAGE REGULATIONS.

Washington, Sept. 1.-The Treasury Department Washington, Sept. 1.—The Treasury Department is engaged in the preparation of regulations to govern the examinations to be made at the custom houses under that clause of the new Tariff act limiting the amount of personal bagange of returning residents of the United States to \$100 in value. At the request of President Shappe, of the New-York Merchants' Board of Trade, the regulations will not be issued until representatives of that body have had a hearing. One of the questions which is giving the Treasury officials some concern is the definition of the word "resident" in the act.

TO STORE PETROLEUM IN BOND.

Ottawa, Ont., Sept. 1.-The Minister of Custom has decided that hereafter petroleum imported in tank-cars may be stored in bond in bulk. This is a concession to importers of American coal oil, as heretofore duty had to be paid on the entire consignment before the oil could be stored away. Under the new system an importer can bring in 500 gailons at a time by tank-car, store it in his warehouse and pay duty as he disposes of it in barrels.
